SUMMARY

Full Stack Web Developer specializing in **MERN stack development**. Experienced in building **scalable web applications** with React, Next.js, Node.js, and Express. Skilled in **frontend UI implementation, backend API development, and performance optimization**. Passionate about leveraging emerging technologies to solve real-world problems and deliver high-quality, user-focused applications.

EXPERIENCE

Front-end Developer and QA Engineer (Internship)

Concypt **Service Based Company**

- Developed front-end interfaces using HTML, CSS, JavaScript, and React.js.
- Learned GSAP for animations.
- Conducted QA testing and reported bugs to improve application stability.

Backend Engineer (Internship)

Token Talent HR **Product-based startup**

- Developed backend services using Node.js, Express, and MongoDB.
- Designed and implemented APIs for their mobile application.
- Optimized database queries for improved performance.

PROJECT

ALMTraders

Wholesalers and Retail • www.almtraders.org/ • February 2025 - April 2025

- I developed an efficient website using Next.js and TypeScript for AlmTrader, a leading wholesale tech distributor.
- The website features a user-friendly interface to showcase their range of products, including laptops and tech accessories, with easy navigation for businesses.
- It effectively highlights AlmTrader's expertise and global reach while providing an optimized experience for both corporate and retail clients.

Sysvelop

Software House • www.sysvelop.com/ • October 2025 - November 2025

- I designed and developed Sysvelop's official website—a modern, high-performance platform built with Next.js, TypeScript, and TailwindCSS.
- The site showcases Sysvelop's technical expertise through a clean interface, engaging visuals, and seamless animations.
- I create a bold digital presence that communicates innovation, reliability, and scalability.

Capto AI

AI Project • capto-ai.vercel.app/ • August 2025 - November 2025

- Capto AI offers a fully functional web application designed to help creators, marketers, and entrepreneurs streamline content creation.
- It features two core tools — a Captions Generator for crafting short, engaging social media posts, and a Prompt Generator for producing optimized prompts for any AI model. Built entirely with Next.js, React, TypeScript, MongoDB, TailwindCSS, and Zustand.
- It offers a clean, responsive UI, free & paid plans, and instant browser access.
- I led the entire product lifecycle from concept to launch, integrating AI for fast, reliable, and user-friendly results.

EDUCATION

Bachelor's in Information Technology

University of Management and Technology (UMT) • Lahore • 2027

CERTIFICATIONS

Full-stack Web development

Udemy • 2023

- Completed a comprehensive course covering **JavaScript, TypeScript, Node.js, Express, MongoDB, React.js, and REST APIs**.
- Built full-stack projects demonstrating **end-to-end application development**.
- Applied modern web development best practices, including **component-based architecture, API integration, and database design**.
- Strengthened practical skills for **frontend and backend development in MERN stack environments**.

INVOLVEMENT

Web Development Lead

University of Management and Technology • ACM-UMT – Lahore • November 2025 - Present

- Organized and managed web development events, including hackathons and workshops, attended by students from multiple universities.
- Led planning, scheduling, and execution of events, ensuring smooth operations under tight timelines.
- Ensured participant engagement and maintained high-quality event experiences.

Management Team

PK • University of Management and Technology (UMT) – Lahore • June 2025 - June 2025

- Contributed to organizing and coordinating a 12-hour hackathon attended by tech enthusiasts from various universities.
- Collaborated with participants and organizers to manage the event and ensure smooth execution under tight timelines.
- Participated in the project evaluation process, assessing innovative solutions developed in high-pressure environments.

Participant

Topi, KPK • Softcom '25 Hackathon (UMT & GIKI Collaboration) • February 2025 - February 2025

- Competed as part of a 3-member team in a hackathon focused on solving real-world tech problems.
- Developed an innovative project prototype within a competitive and time-constrained environment.
- Strengthened skills in teamwork, critical thinking, and rapid problem-solving.
- Networked with industry mentors and fellow developers to gain valuable insights and feedback.

SKILLS

HTML, CSS, JavaScript, TypeScript

React.js, Next.js, Tailwind CSS, Zustand, Shadcn UI

Node.js, Express.js, MongoDB, Git, GitHub
